--	---

Part B: Submission

You may choose to send a document, a video, a voice recording or picture as your submission. *Please contact the Human Rights and Technology Project Team to send a file larger than 20 MB, such as an Auslan submission.*

This section includes a series of questions developed by the Commission that you may respond to. You do not need to answer every question.

Consultation questions

1. What should be the main goals of government regulation in the area of artificial intelligence?
2. Considering how artificial intelligence is currently regulated and influenced in Australia:
 - (a) What existing bodies play an important role in this area?
 - (b) What are the gaps in the current regulatory system?
3. Would there be significant economic and/or social value for Australia in a Responsible Innovation Organisation?
4. Under what circumstances would a Responsible Innovation Organisation add value to your organisation directly?

5. How should the business case for a Responsible Innovation Organisation be measured?

6. If Australia had a Responsible Innovation Organisation:

- (a) What should be its overarching vision and core aims?
- (b) What powers and functions should it have?
- (c) How should it be structured?
- (d) What internal and external expertise should it have at its disposal?
- (e) How should it interact with other bodies with similar responsibilities?
- (f) How should its activities be resourced? Would it be jointly funded by government and industry? How would its independence be secured?
- (g) How should it be evaluated and monitored? How should it report its activities?
